PROTECTION, RISK & IMPACT SEVERITY MONITOR

Protection risks captured by PRISM's *risk monitoring*

Between 18-24 November 2026, PRISM monitored 224 protection risk incidents across 49 humanitarian crisis contexts. The most prominent risks were attacks on civilians, abduction and arbitrary detention, and restrictions on movement. Attacks on civilians alone ran to 108 incidents, in 31 of the contexts. These pages carry the 23 contexts with 3 or more.
